February FEATURE

Pet Dental Awareness Month!

Hello Apple Grove Veterinary Care Clients!! Hope the New Year is off to a great start for you and your pets! We've been busy at Apple Grove Veterinary Care, but wanted to take a moment to talk to you about February being "Dental" month for your pets. During the month of February the Apple Grove Team will be focusing on Dental Health in your pets and offer special coupons for dental procedures and products.

Does your pet have bad breath? It could be caused by some form of dental disease. Dental disease affects 85% of all adult pets! Dental disease not only causes complications in a pet's mouth, but also causes problems in other parts of the body. Bacteria from dental disease can travel through the body and cause heart, lung or kidney problems.

During routine exams at Apple Grove Veterinary Care your pet's mouth is examined and if a dental cleaning would benefit your pet, the doctors recommend it at the time of the visit. During the month of February we are having a special offer; **10% off the base price of a dental cleaning**. These coupons don't expire until the end of March this year.

Dental health is not something to ignore; even in young pets or pets who don't need a dental cleaning yet. At Apple Grove Veterinary Care we have many dental health products that your pet will enjoy. Of course, brushing your pet's teeth is the gold standard to keep the mouth healthy, but many pets won't tolerate this! So, we have products such as food, treats, wipes, or a water additive. All of these products will help promote a health smile in your furry friend, and all of these **products are also 10% off during February!**

We would love to see or hear from you. So stop by Apple Grove, call or email with any questions or concerns about this month's events. As always we are here to provide every patient with optimum health and wellness by practicing and providing progressive, compassionate, and high quality veterinary care through the educational enhancement of our clients and ourselves.

As always, feel free to call or email with any pet concerns!

Thank you so much for your time!
