## Fleas & Ticks

Hello Apple Grove Veterinary Care Clients!! We've been busy at Apple Grove Veterinary Care, and wanted to let you know that flea and tick season is upon us. In Michigan fleas and ticks are a threat to your pets every year from May through a hard frost in the fall! Monthly flea and tick preventative can reduce the risk of tick borne disease and eliminate the stress of dealing with fleas.

Apple Grove is proud to promote effective and safe flea and tick products. There are several over the counter products carried in stores that are not safe or effective. When it comes to flea and tick products, *"you get what you pay for!"* Products such as Frontline Plus, Vectra 3D, and Advantage Multi are topical products, waterproof after 24 hours, and effective for 1 month.

Stop into Apple Grove to stock up on your flea and tick products and take advantage of our great savings we have to offer! Frontline Plus offers great flea and tick prevention and offers *buy 3 doses get 1 free, or buy 6 doses get 2 doses free!* That's up to a \$36 savings on a product that is highly recommended by veterinarians, is very effective, and doesn't expire!

Apple Grove also offers great deals on other flea and tick products. Vectra 3D (only available for dogs) is a great product for your pets if they go camping with you since it prevents flea and ticks, is waterproof, and repels mosquitoes and biting flies! *Buy 6 doses of Vectra 3D and receive a \$10 rebate gift card or buy 12 doses of Vectra 3D and receive a \$25 rebate gift card !*

Advantage multi is also a great product for flea season. One application of this product will kill fleas (doesn't protect against ticks) for 1 month, deworm, prevent heartworms, and prevent earmites in cats. *Buy 6 doses of Advantage Multi get 2 free, AND get a \$20 rebate (limit 2 rebates per household)!*

For those of you who choose not to apply topical products to your pet, you can still fight against fleas and ticks! Comfortis is chewable tab that prevents fleas for 1 month. If ticks are a concern, a waterproof Preventic Collar can be used for 90 days of tick protection. Apple Grove doesn't carry these products in the clinic, but can be ordered through our online store. Email or call with any questions or more interest in these products.

Fleas and ticks are a real threat to pets! Not only are they uncomfortable to pets as they take frequent blood meals from your pets, they also can cause serious health problems. There are several tick diseases transmitted to pets, such as lyme disease, and fleas can cause tapeworms, induce flea allergies, and are very difficult to get rid of! All flea and tick products sold at Apple Grove can be purchased by the single dose, but we encourage you to take advantage of the wonderful special offers available now!

We would love to see or hear from you. So stop by Apple Grove, call or email with any questions or concerns about this month's specials. As always we are here to provide every patient with optimum health and wellness by practicing and providing progressive, compassionate, and high quality veterinary care through the educational enhancement of our clients and ourselves.

As always, feel free to call or email with any pet concerns! Thank you so much for your time!
